

FOR IMMEDIATE RELEASE

October 17, 2011

Crocus Medical Inc. signs exclusive United States distribution agreement for Manrex Ultra-Glide Medication Carts and Compliance Packaging Systems

(October 17, 2011) Crocus Medical has been selected as the exclusive United States representative for Manrex Limited's line of long term care products, encompassing their blister card systems, medication carts and medication crushers.

The addition of the Manrex long term care products strengthens the product offering of Crocus in the American market. With the aging demographic continuing to expand in the United States, long term care provision will clearly continue to grow and the Crocus Team believes the Manrex products will be of great value to pharmacists involved in long term care.

Manrex Limited has been providing blister systems to long term care providers in Canada, the UK, Ireland, France and Australia for forty years. It has an excellent reputation for developing very pharmacist and nurse friendly products, always with a focus on medication error prevention.

"We are happy to have partnered with Crocus Medical" says Fiona Mourant, President of Manrex Ltd. "Manrex Ltd. has had tremendous success in the Canadian and International markets we service with our medication error prevention product lines. We are truly excited to now be entering the American market with our colleagues at Crocus Medical."

About Manrex Ltd.: Manrex Limited is a 100% Canadian company with more than 30 years experience in medication delivery systems. Manrex has developed many of the systems that are currently in use within the medication delivery field today and is continually seeking technologies and products that improve health care and patient safety. The company's commitment to better patient care has made Manrex the proven leader in the field, offering the most efficient, most effective, innovative and complete medication delivery system available.
